

7- or 8-Week After School Enrichment Program

DESCRIPTION:

Build strategic thinking skills by playing card games. After learning game play etiquette and deck anatomy, players learn **six different games**. Card game play teaches kids strategic thinking, sportsmanship, probabilities, and a few life lessons.

OBJECTIVES:

1. Understand the basic rules of each card game.
2. Learn strategies to enhance gameplay.
3. Receive the “game of life” lesson of the week.
4. Practice different card game variations to develop their skills.

STRUCTURE:

A few minutes of learning alongside plenty of card playtime with friends.

OUTCOME: Students will understand card game rules and have a grasp of strategy and tactics in a variety of card games. Each student takes home a rules card.

Fundraising and financial aid opportunities are available for **PTSOs**.
